

# Death Rate vs. Birth Rate

## Table of contents

<b>1 Data Analysis</b>	<b>1</b>
<b>2 Results &amp; Discussion</b>	<b>2</b>

Which countries have death rates higher than birth rates?

This page explores the relationship between the birth rate and death rate in four Latin American countries: Colombia, Brazil, Argentina, and Mexico.

## 1 Data Analysis

	Country	Birth Rate	Death Rate	Sum of Rates
0	Argentina	10.926	8.797	2.129
1	Brazil	12.555	7.539	5.016
2	Colombia	13.731	5.881	7.85
3	Mexico	16.041	6.521	9.52

## 2 Results & Discussion

As shown in the graph, none of these countries currently have a death rate that surpasses their birth rate. Colombia and Brazil show comparable differences between birth and death rates, while Argentina's gap is slightly narrower. Among all 4 countries compared, Mexico exhibits the highest natural population growth, whereas Argentina's growth is smaller.
